DETAILED ACTION

Continued Prosecution Application

The request filed on 10/7/02 for an RCE filed under 37 CFR 1.114 is acceptable and an RCE has been established. The amendment filed therewith has been entered. An action on the RCE follows.

Information Disclosure Statement

The information disclosure statement filed 4/3/02 has been received and made of record in the application file wrapper. Note the acknowledged PTO-1449 form enclosed herewith.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 16-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As regards claims 16-18, the examiner is unclear as to whether the applicant intends to claim the appliance as a part of the invention. If it is the applicant's intention to claim both the wound dressing and the appliance, the applicant should do so using a combination-type claim. If it is applicant's intention not to claim the appliance as a part of the invention, then further limiting the appliance is not allowed.

Claim Objections

Claim 18 is objected to because of the following informalities:

Claim 18 is objected to because of the following informalities: the claim should read "...wherein the appliance is a wound drain". . Appropriate correction is required.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claim 15 is rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1 of U.S. Patent No. 6,087,549 ("the '549 patent"). Although the conflicting claims are not identical, they are not patentably distinct from each other because the preambles are different. The examiner acknowledges that the wound dressing of the instant invention is incorporated into an appliance as recited in the preamble. However, it has been held that a preamble is denied the effect of a limitation where the claim is drawn to a structure and the portion of the claim following the preamble is a self-contained description of the structure not

depending for completeness upon the introductory clause. *Kropa v. Robie*, 88 USPQ 478 (CCPA 1951).

Additionally, the applicant should note that the limitations of claim 15 are anticipated by patented claim 1 of the '549 application.

Claims 1, 3-14 and 19 are allowed.
